

[Alondra Avelar]

[alondra.avelar@scholar.smashprogram.org]

Objective: My future life goals is to discover my passion and go to a university that has the career that I want to go. Some interests and hobbies that I like to do are doing math, working with little kids, and learning about the human body. My interests and hobbies align with my future goals because it will help me discover what I would want to pursue using what I like to do now.
